

ELECTRONIC GADGETS & SYSTEMS FOR SENIOR LIVING
(Source of Information: www.seniorshelf.com, August 2016)

Certain electronic gadgets and systems, if provided in the house, can make the lives of the aged dwellers easy and comfortable, or at least less painful and safer. Large varieties are now available in the Indian market, and these are not expensive. Those considered more useful are listed below:

1. Charging station for electronic gadgets
2. Motion-sensor operated lights in living room, bathrooms and stores
3. Daylight-sensor based light at main-entrance to the house
4. Remote control system for all or bedroom switches
5. Electronic pest repellents or killer (instead of chemical repellents)
6. Video calling system
7. Emergency response system
